ENTERPRISE ASSESSMENT REPORT

COMPANY
NAME

XYZ EXAMPLE LTD

TAX ID
NUMBER

1234567890

REPORT DATA
PERIOD

01 January - 31 December 2025

CONTENT

It is broadly accepted that SMEs are the basis of the economy, of our country's economy. Whether they are micro or small entities they hold important positions. They also have unique challenges including the inability to institutionalize sufficiently and they have problems with financing and in finding qualified labour. Moreover, a more structural issue often accompanies these problems – SMEs are often unable to evaluate their current positions and to provide sufficient information to express themselves.

To address this, KOSGEB developed the Enterprise Assessment Report using the records various administrations and institutions keep (according to their legislation). This tool will help illuminate the current situation of the SME, and provide a data report for them to present themselves.

The report lets the enterprise compare itself with the industry throughout Türkiye and its statistical regions. The report will enable enterprises to make plans and programs according to their place in the sector, as well as to help them to follow their development and manage their resources efficiently according to the plans made in the previous year.

In the upper right corner of each chart or table, there are abbreviations for the institutions from which the data was taken.

This report has been prepared for informational purposes and is not an official document. KOSGEB is not responsible for the accuracy, timeliness, and authenticity of administrative records obtained through web services from institutions and organizations. The report doesn't include any interpretations by KOSGEB. Since the report consists of data obtained from various institutions and organizations, the diversity of the data and the differences in the approaches of the institutions obliged us to make some assumptions. So, the following points should be considered when reviewing the report:

•The declarations made by the enterprises to the relevant institutions and organizations are assumed to be correct.

• Sector analyses have been conducted based on the NACE Rev. 2.1 six-digit codes, following the transition from NACE Rev. 2.0 to NACE Rev. 2.1. Due to this transformation, sectoral averages prior to 2024 could not be included in the report for activity codes that could not be matched. The outliers removed from the data when calculating averages using the interquartile range rule.

• Enterprises that do not have data for a particular chart are not included in the sector average. For example, when calculating the sectoral export averages, only the data of exporting enterprises are taken into consideration.

• The main sector information of the enterprise was obtained from the Revenue Administration. For enterprises operating in more than one sector, only the first five items are shown in the report.

• If the number of enterprises is six or below, in order to protect the anonymity of the enterprises, sector averages are not reflected in a chart.

•The report is based on the sector in which the enterprise operated last year and its tax accounting method.

•The total number of enterprises in the General Rankings chapter has been calculated by considering only the enterprises with data for that related variable.

Please send an e-mail to idr@kosgeb.gov.tr for your comments and suggestions.

6.EXPORTATION

Exportation Breakdown

MOT, 2021-2025

Türkiye

TR5 - West Anatolia

The enterprise was among the exporting companies which **exported goods** between 2020 and 2024.

The percentage of the exporting enterprises between the years 2020 and 2024: 3.394% in Türkiye, 2.884% in TR5 -West Anatolia.

The Percentage of the Export Sales in the Total Sales

RA, 2021-2025

Türkiye

Sektör TR5 - West Anatolia

The Enterprise

Total Amount of Exports

MOT

TR Ranking 56 / 337

Regarding the total amount of exports between 2021 and 2025, the enterprise ranked 56th out of 337 peers in its sector in Türkiye.

TR5 - West Anatolia Ranking 10 / 77

Regarding the total amount of exports between 2021 and 2025, the enterprise ranked 10th out of 77 peers in its sector in the TR5 -West Anatolia region.

*Ministry of Trade's exports data comes from customs declarations and do not include **service** export.

6.EXPORTATION

Exports per Annum

MOT

	2021	2022	2023	2024	2025
The Enterprise	\$2,361.78	\$699,967.34	\$718,938.21	\$137,469.48	\$422,193.14
Sector Average - NUTS1	\$59,315.2	\$216,169.83	\$250,763.73	\$210,213.85	\$255,911.85
Sector Average - Türkiye	\$88,905.15	\$114,242.81	\$166,238.94	\$211,678.1	\$209,690.59

Top Five Target Countries by the Sector's Total Amount of Exports

MOT, 2021-2025

Name of the Country	Share in the Total Exports	Enterprise's Contribution*
UZBEKISTAN	19.47%	9.7%
GERMANY	11.44%	1.9%
USA	8.92%	2.1%
ITALY	8.01%	3.4 %
FRANCE	4.56%	1.1%

*That percentage shows the enterprise's share in the totalexports to the target country. When the enterprise's share is not zero but too low to show using two-digit precision, it will appear as 0%. If the enterprise did not contribute to the exports to a target country, the corresponding cell will be empty.

6.EXPORTATION

Top Five Target Countries by the Enterprise's Total Amount of Exports

MOT, 2021-2025

Name of the Country	Share in the Total Exports
PORTUGAL	60.16%
SYRIAN ARAB REPUBLIC	17.50%
ITALY	6.25%
ISLAMIC REPUBLIC OF IRAN	5.41%
VIETNAM	4.80%

Average Number of Exported Commodity Types per Annum According to the GTIP

Earnings Before Interest, Tax, Depreciation, and Amortization – EBITDA is an important indicator not only for profitability performance but also for business purchases. Since it presents the earning potential of the business, it hints the business value in the most general way. A high rate affects the market value of the enterprise positively.

*EBITDA: Earnings Before Interest, Tax, Depreciation, and Amortization
